Alkhobar, Kingdom of Saudi Arabia

Eastern Crown Global Trading Company

Eastern Crown Global Trading Company is a premium industrial trading house based in Alkhobar. We supply piping components, valves, structural steel, fasteners, safety products, plumbing systems and building materials for capital projects and plant maintenance across the Kingdom of Saudi Arabia.

Buyers work with one bilingual counterpart for mill origin, approved-vendor checks, inspection documents and delivery to site or warehouse. The desk handles English and Arabic RFQs for EPC contractors, fabricators, utilities and industrial stores.

What we stand for

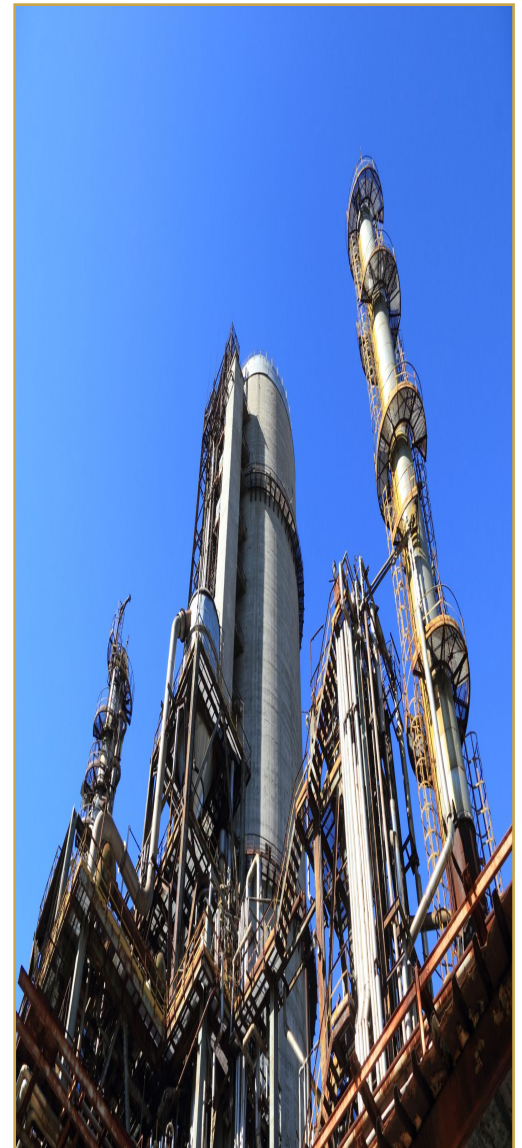

- Approved manufacturers and documented mill origin on every lot.
- Bilingual RFQ desk for EPC contractors and plant stores.
- Matched packages across piping, steel, safety and plumbing.
- Inspection, packing lists and certificates travelling with the goods.
- After-delivery support for shortfalls and follow-on lots.

Where we work

Typical work includes oil and gas utilities, petrochemical plants, water schemes, industrial buildings and commercial fit-out. Material is sourced to ASTM, ASME, EN and project-approved vendor lists.

Languages and documents

RFQs, quotations and packing lists are issued in English. Arabic support is available for site and store teams. Mill test certificates and inspection reports follow the purchase order.

A reliable trading partner for industry in the Kingdom

Project buyers and maintenance teams work with one counterpart for pipe, fittings, valves, steel, hardware, safety and plumbing — with mill origin, inspection documents and bilingual support from RFQ to receiving.

Serving industry

How we work

- Confirm specification, grade, schedule and approved manufacturer list before pricing.
- Advise mill or warehouse lead times and the inspection documents that travel with the goods.
- Coordinate packing, marking and delivery to site, yard or plant store.
- Remain available after delivery for shortfalls, replacements and follow-on lots.

Why project teams stay with ECG

A single RFQ can cover carbon and stainless systems, valves, steel and site hardware so the package arrives together. Certificates, packing lists and heat numbers stay with the order file. The same desk answers follow-up questions in English or Arabic.

One enquiry. A matched package.

Pipe, fittings, flanges, valves, steel, fasteners, safety products and plumbing can sit on the same RFQ so the site team receives a matched package. Supply follows international codes and the approved manufacturer list of each project.

CS / SS Pipe & Fittings

Seamless and welded carbon, stainless, duplex and GI systems with matching fittings and flanges.

Valves & Accessories

Gate, globe, check, ball, butterfly and fire valves with joint kits and actuators.

Steel & Fasteners

Sheets, coils, beams, channels, hollow sections, nuts, bolts and wire rope.

Safety & PPE

Helmets, eye protection, FR clothing, harnesses, boots and industrial gloves.

Plumbing & Irrigation

PVC, CPVC, PPR and HDPE pipe, fittings, valves, heaters and sanitary ware.

Tools, Lifting & Site

Industrial tools, hydraulics, lifting gear, scaffolding, welding and storage tanks.

How a typical order is built

The enquiry is checked against the line class and vendor list. Alternatives are offered only when they meet the same code. Packing is marked with heat or batch numbers so receiving can close the inspection without extra correspondence.

Carbon Steel Pipe & Fittings

Carbon steel remains the workhorse of process and utility piping in the Kingdom. We supply seamless and welded pipe with matching fittings and flanges for above-ground and buried service.

Line class, schedule and approved manufacturer are confirmed before pricing so the lot matches the isometric and the vendor list.

Typical supply

- Seamless and welded pipe to ASTM / ASME grades.
- Elbows, tees, reducers, caps and stub ends.
- Weld-neck, slip-on, blind and socket-weld flanges.
- Gaskets, stud bolts and joint kits on the same RFQ.

Stainless, Duplex & Alloy Systems

Stainless, duplex and super duplex pipe and fittings for corrosive, hygienic and high-temperature service. Typical grades include 304 / 304L / 316 / 316L and duplex families.

Material certificates and PMI can travel with the goods when the project requires them.

Typical supply

- Seamless and welded stainless pipe and tube.
- Butt-weld and forged fittings to match the line class.
- Flanges and companion hardware in the same grade.
- Traceable heat numbers retained with the order file.

Valves & Accessories

Gate, globe, check, ball and butterfly valves in carbon steel, stainless steel, duplex, cast iron and special alloys. Fire valves and hydrants sit on the same desk.

Actuated packages and joint kits can be quoted with the valve so the installer receives a complete set.

Typical supply

- Gate, globe and check valves for process and utility lines.
- Ball and butterfly valves for isolation and control.
- Fire valves and hydrants for plant protection.
- Stud bolts, nuts, gaskets and actuator options.

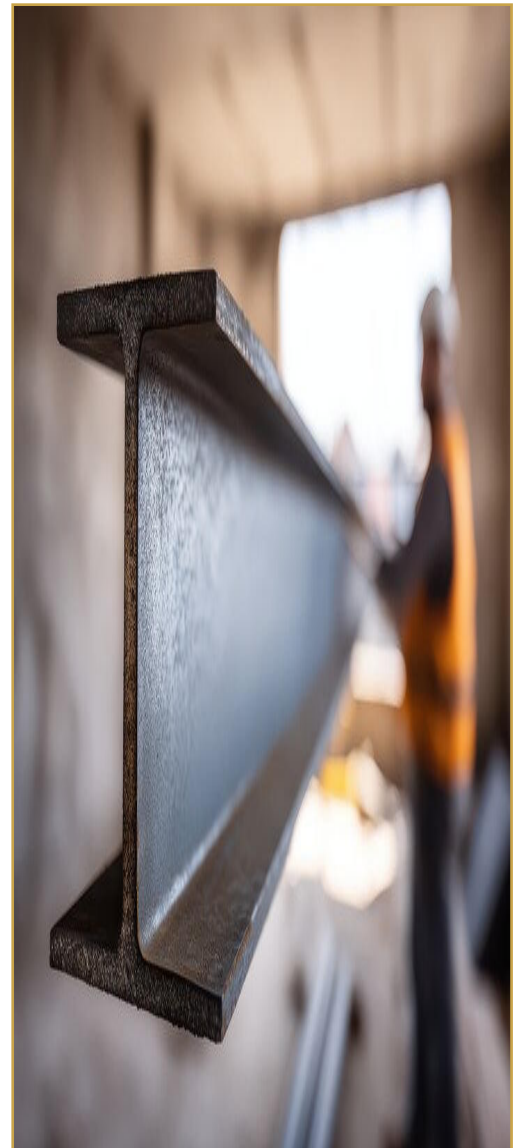

Steel Structure & Fasteners

Structural steel for industrial buildings and plant structures — beams, channels, hollow sections, plate and coil. Fasteners and wire complete the same package.

Mill origin and paperwork are prepared so site inspection can close without extra correspondence.

Typical supply

- UB, UC, channels, angles and hollow sections.
- Plate, sheet, coil and chequer plate.
- Nuts, bolts, studs, wire rope and mesh.
- Carbon and stainless hardware for piping and steelwork.

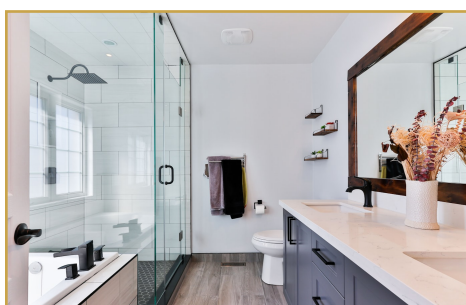

Building Materials & Quality

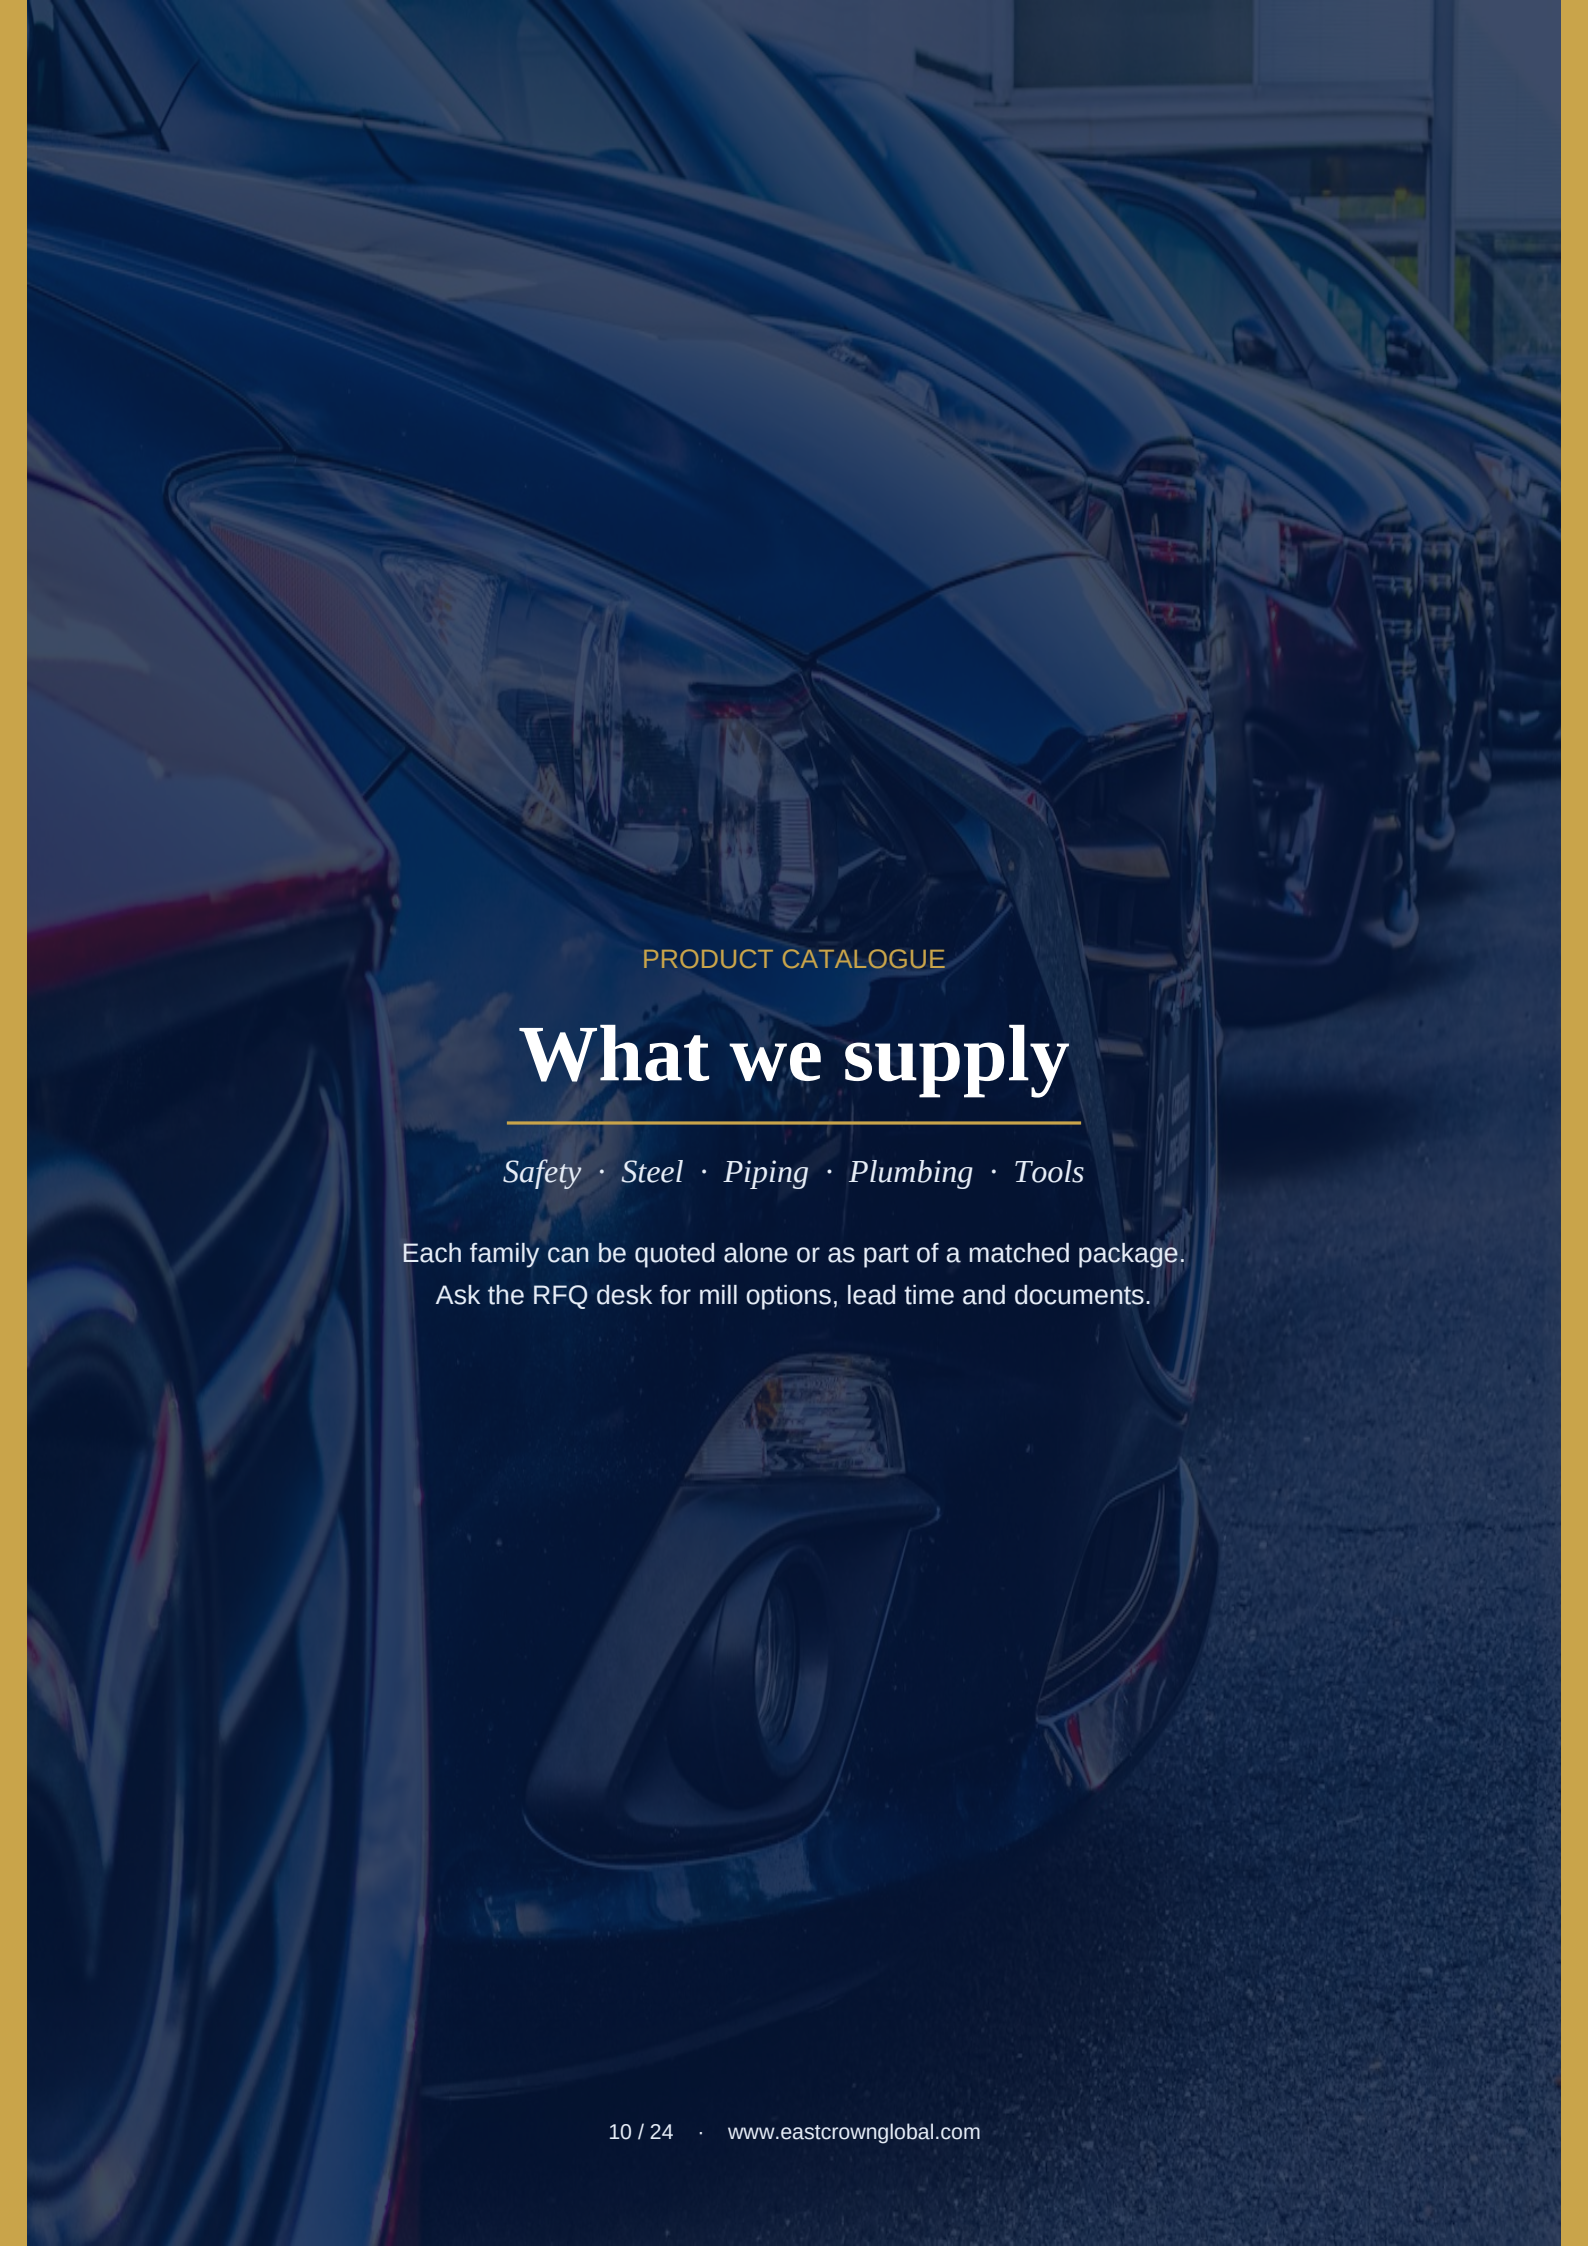

Building, plumbing and construction materials sit alongside the industrial piping range: aluminium systems, sanitary ware, tanks and general site supplies.

Every lot is checked against specification and the approved vendor list before it is committed.

Typical supply

- Specification and approved-vendor checks before commitment.
- Visual and dimensional checks against the packing list.
- Traceability documents retained with the order file.
- Bilingual after-sales support for shortfalls and replacements.

PRODUCT CATALOGUE

What we supply

Safety · Steel · Piping · Plumbing · Tools

Each family can be quoted alone or as part of a matched package.
Ask the RFQ desk for mill options, lead time and documents.

Safety — Helmets, Eye Protection & PPE

Worker protection is specified with the same care as the piping package. Hard hats, eye and face protection, hearing protection, harnesses and general PPE are available for construction, plant and shutdown crews.

Range on request

- Hard hats and helmets to EN 397 with optional chin strap and visor.
- Safety spectacles and goggles to EN 166 for impact, dust and splash.
- Full-body harnesses, lanyards and connectors for work at height.
- Hearing protection, gloves and general site PPE in standard sizes.

Codes and notes

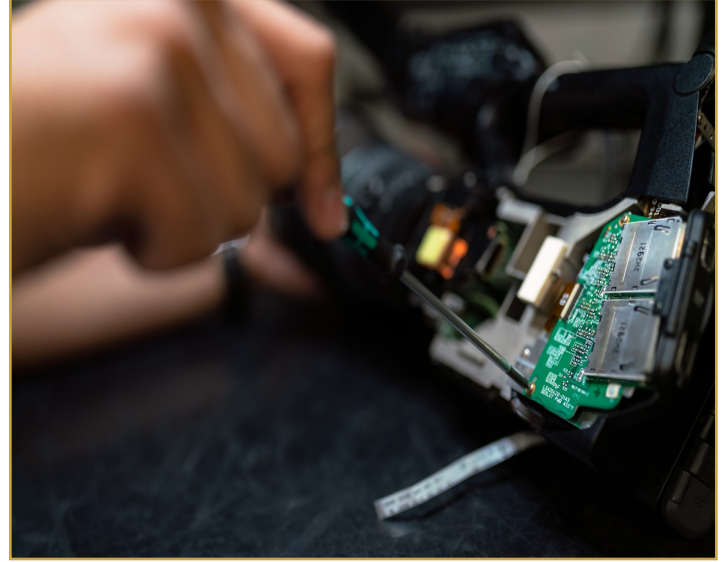

Common references: EN 397, EN 166, EN 361. Colours can follow the site standard.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Safety — FR Clothing, Footwear & Gloves

Flame-resistant coveralls, high-visibility jackets, safety boots and industrial gloves for hot work, plant operations and outdoor construction. Fabric weight, colour and size runs follow the project clothing matrix.

Range on request

- FR coveralls and shirts in cotton and inherent-FR blends.
- High-visibility jackets and vests to EN high-visibility classes.
- Safety boots and wellingtons to EN ISO 20345.
- Leather, nitrile, cut-resistant and chemical gloves by task.

Codes and notes

Typical references: EN 11611, EN 11612, IEC 61482, EN ISO 20345, EN 388.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownnglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Steel — Sheets, Coils, Plate & Sections

Flat products for fabrication shops and site steelwork. Chequer plate, galvanized sheet, coil and plate are quoted by grade, thickness and length.

Range on request

- Hot-rolled and cold-rolled sheet and plate in carbon grades.
- Galvanized coil and sheet for cladding and light fabrication.
- Chequer / floor plate for walkways and platforms.
- Corrugated and profiled sheet where the package requires it.

Codes and notes

Grades and coating mass follow the project specification. Mill certificates travel with the lot.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Steel — Beams, Bars, Channels & Hollow Sections

UB and UC beams, channels, angles, rounds, squares and hollow sections for industrial buildings, pipe racks and plant structures. Lengths and cutting lists can be coordinated with the fabricator.

Range on request

- Universal beams and columns to the project size table.
- Channels, angles and flat bar for secondary steel.
- Square, rectangular and circular hollow sections.
- Rebar and merchant bar for civil packages on the same site.

Codes and notes

Supply to EN 10025 / ASTM A36 / A572 or the grade named on the drawing.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Fasteners — Nuts, Bolts, Wire Rope & Mesh

Hex bolts, studs, nuts, washers, U-bolts, wire rope and mesh for piping, steelwork and general site use. Stainless and galvanized finishes sit on the same RFQ.

Different Types of Wire Rope Clips

U-Bolt

Fist Grip

Double Saddle

Forged

Stainless Steel

Malleable Iron

Galvanized

Simplex/Duplex

Range on request

- Hex bolts, stud bolts, nuts and washers in carbon and stainless.
- U-bolts, eye bolts, wire-rope clips and thimbles.
- Galvanized wire rope, mesh and hardware cloth.
- Natural and synthetic fibre rope for general site work.

Codes and notes

Thread, length and coating are confirmed against the joint schedule.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownnglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Lifting, Rigging & Scaffolding

Shackles, hooks, slings, blocks, lifting clamps and scaffolding components for shutdowns and new-build sites. Couplers, standards, casters and boards can be quoted with the steel package.

Range on request

- Wire-rope slings, chain slings, shackles, hooks and swivels.
- Snatch blocks, chain blocks and lifting clamps.
- Scaffold tubes, couplers, base jacks, casters and boards.
- Marked working-load limits on lifting hardware where specified.

Codes and notes

Lifting gear is supplied with identification and certificates when the site procedure requires them.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Piping — CS, CI, SS & GI Systems

Carbon steel, cast iron, stainless steel and galvanized pipe with matching fittings and flanges. One enquiry can cover the process line and the utility line.

Range on request

- CS seamless and welded pipe with BW and forged fittings.
- CI / ductile iron pipe and fittings for water and drainage.
- SS pipe and fittings in 304 / 316 families.
- GI pipe and fittings for utility and fire-water lines.

Codes and notes

Ends, schedule and coating follow the isometric. Heat numbers stay on the packing list.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Valves — Gate, Globe, Ball, Butterfly & Fire

A complete isolation and control range for process, utility and fire-protection lines. Manual, gear and actuated options can be quoted with companion flanges and the joint kit.

Range on request

- Gate, globe and check valves in CS, SS and alloy.
- Ball and butterfly valves, lever or gear operated.
- Fire hydrants, landing valves and fire-protection trim.
- Pneumatic and electric actuators on request.

Codes and notes

Pressure class, end connection and trim are taken from the valve data sheet.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Irrigation & Plumbing — PVC, CPVC, PPR

Pressure and non-pressure plastic systems for water, irrigation, drainage and building services. SCH 40 / SCH 80 pipe, solvent-weld fittings and PPR hot-and-cold systems are quoted as a family.

Range on request

- UPVC / CPVC pipe SCH 40 and SCH 80 as specified.
- PVC and CPVC fittings, unions, flanges and valves.
- PPR pipe and fittings for hot and cold potable water.
- Electrical conduit, drain pipe and solvent cements.

Codes and notes

ASTM D1785 / D2241 and equivalent EN references unless the project names another standard.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

HDPE Pipe, Fittings, Valves & Tanks

Black HDPE pipe in coils and straight lengths, electrofusion and compression fittings, HDPE valves, and water or chemical storage tanks including IBC totes.

Range on request

- HDPE PE100 pipe in common SDR ratings and diameters.
- Compression, butt-fusion and electrofusion fittings.
- HDPE ball and gate valves for water networks.
- Vertical, horizontal and IBC tanks for water and chemicals.

Codes and notes

SDR, PE grade and tank capacity are confirmed against the hydraulic and storage design.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Sanitary Ware, Heaters & Washroom

Ceramic sanitary ware, mixers, showers, kitchen sinks, water heaters and washroom accessories for camps, offices and industrial buildings attached to the plant.

Range on request

- WC (eastern and western), urinals, basins and bidets.
- Shower trays, tubs, mixing valves and hand showers.
- Storage and instantaneous water heaters with elements.
- Taps, filters, paper dispensers and washroom hardware.

Codes and notes

Finishes and brands follow the architectural schedule when one is issued with the RFQ.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownnglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Industrial Tools, Welding & Workshop

Hand tools, power tools, measuring instruments, welding consumables and workshop equipment for fabrication shops and shutdown crews.

Range on request

- Spanners, sockets, hammers, pliers and insulated screwdrivers.
- Power tools, compressors and site equipment.
- Welding rods, TIG wire, regulators, torches and hoses.
- Measuring instruments and electrical testers.

Codes and notes

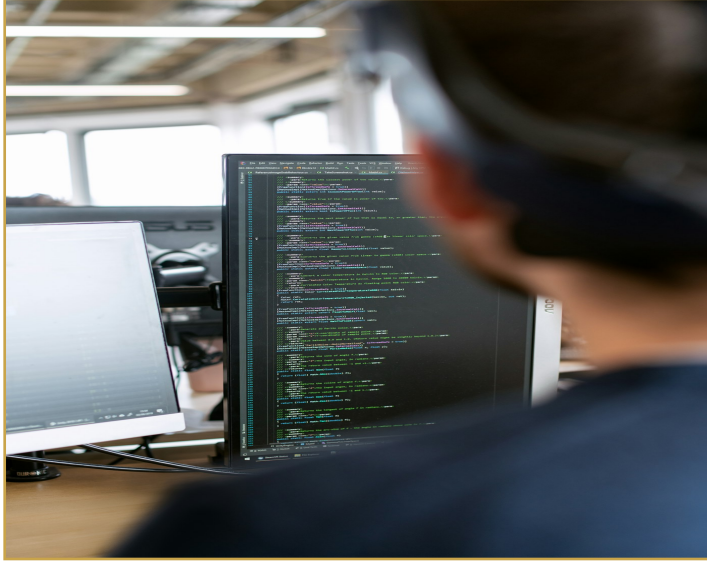

Brand and voltage are confirmed for powered equipment before the lot is released.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.

Hydraulics, Bearings, Belts & Fabrication

Hydraulic hose and couplings, belts, bearings and chain for rotating equipment, plus aluminium and steel fabrication for doors, canopies, platforms and plant structures.

Range on request

- Hydraulic hose assemblies and reusable couplings.
- V-belts, timing belts, roller chain and sprockets.
- Ball, roller and housed bearings.
- Aluminium sheet, steel frames, doors, stairs and canopies.

Codes and notes

Hose dash size and bearing designation are taken from the equipment tag or sample.

How to order

Send the specification, quantity, required documents and delivery point to info@eastcrownglobal.com or WhatsApp +966 56 818 3161. The RFQ desk replies in English or Arabic with mill options, lead time and a packing plan.
